

LED Display User Manual

Product Name: LED Display Screen

Model: P3.91

Brand: VIOS

I. Warning & Safety Information

ΔImpact Prohibited: Handle with care during transportation.

ΔWaterproof and Moisture-Resistant: Outdoor models are rainproof; indoor models must not be exposed to water.

ΔElectrical Safety: Do not disassemble the unit unless authorized by qualified personnel.

II. Operating Instructions

1. Power on only after verifying that all cables are intact and properly connected.
2. The display requires a controller to operate; launch the control software and transmit signals.
3. Adjust brightness to a comfortable level.
4. After playback ends, close the software first, then power off.

III. Precautions

Avoid displaying static images for extended periods.

Turn off the main power supply during thunderstorms.

Clean the screen gently with a dry cloth.

Do not touch the LED lamp beads' surface with sharp objects.

IV. Features

High-Definition Display: Vivid colors with no motion blur.

Intelligent Brightness Adjustment: Supports manual brightness control.

Stable and Durable: Efficient heat dissipation ensures long service life.

V. Troubleshooting

Display Artifacts: Verify secure connection of data cables.

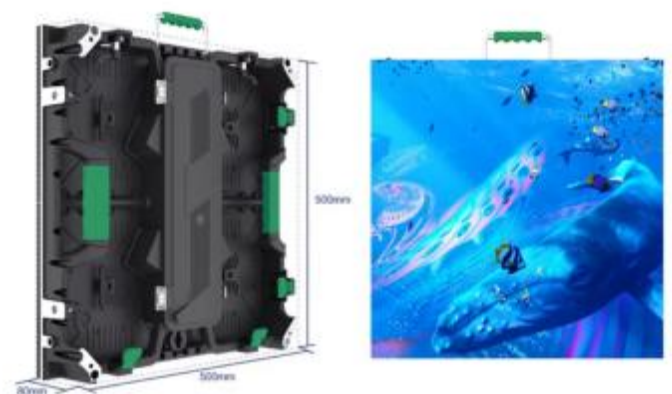

No Power: Confirm that the power switch is turned on.

Color Distortion: Recalibrate software parameters.

VI. After-Sales Service

Two-year full-unit warranty; lifetime screen calibration support.
